SUMMARY

junior penetration tester with a passion for building and breaking systems to make them stronger. Experienced in Active Directory, and web app Security testing, with a track record of finding real vulnerabilities in live platforms.

EDUCATION

Bachelor's Degree in Computer Science | Future Academy, Cairo | **09/2021 – 06/2025**

GPA: 3.08

CERTIFICATIONS

- HackTheBox CPTS (Certified Penetration Testing Specialist)
 - Cisco CyberOps Associate
 - CCNA (Cisco Certified Network Associate)
-

EXPERIENCE

Volunteer Penetration Tester | Web Application Testing | 04/2025 – 06/2025

- Secured a community gaming platform serving 5,000+ users through comprehensive penetration testing and vulnerability assessment.
 - Identified API authentication flaws enabling potential unauthorized impersonation, provided mitigation guidance.
 - Prevented a potential data breach by discovering and reporting 3+ critical SQL injection vulnerabilities affecting user database integrity.
 - Discovered multiple input validation vulnerabilities, improving application resilience.
 - Delivered detailed, prioritized vulnerability reports with actionable remediation steps, accelerating patch deployment.
-

PROJECTS

Secure Network Design | DEPI Project

GitHub: <https://github.com/vipa0z/DEPI-Project-small-secure-network>

- Built a small-scale, resilient network with redundancy, and segmentation.
- Implemented DHCP, DNS, VPN, and firewall rules for internal and DMZ zones.
